PROFESSIONAL PROFILE

I build, automate, and organize digital businesses from scratch — 14+ years, Ciudad Juárez, MX. Self-taught builder since age 15. I build software, AI systems, automations, and businesses from the ground up. 14+ years (since 2012). Ciudad Juárez, MX. Founder of 4 companies (Oryum AI, Repcle, Agencia MDS, Manrep). Author of an original mathematical proof of Hadwiger's Conjecture — an open problem since 1943 — published with an international DOI on Zenodo (V20, 2025). Core stack: C# / .NET, Node.js, PostgreSQL, Python, Claude API, Stripe, Railway, Capacitor.

WORK EXPERIENCE

Founder & Lead Developer

Oryum AI

Founded Oryum AI, a digital startup focused on AI tools. Built COSIMO (AI-powered personal finance SaaS app with Stripe payments, PostgreSQL, Railway, Capacitor for Android/iOS), the Hadwiger V21 mathematical publication, and the literary work Valía. Full-stack end-to-end architecture: DB, REST API, authentication, subscriptions, push notifications, and cloud deployment.

◆ WHAT DO I SOLVE?

If any of these scenarios describes you, I already know how to help.

◆ Your business is operationally chaotic

I diagnose, structure, and organize it with real systems — workflows, tools, accountable owners, and automations that remove the chaos.

🏠 You have no digital presence

I build your website, corporate email, domain, social media, and paid ads from scratch — everything ready to operate and generate clients.

🌟 You want AI but don't know how

I integrate Claude, ChatGPT, or Gemini into your real processes — no bureaucracy, no agency, no months of waiting. I connect it directly to your operation.

✦ You need tech without agencies or middlemen

Direct contact, fast delivery, fair price. 14 years building solo — no sales decks, no bloated teams. Just results.

Need something built? Here's what I do.
